

## CAR PARKING

In the recent past there have been violations of Club Parking Rules by Chauffer driven cars of some of our Members. The Chauffeurs are parking the cars in the areas that are clearly marked, as “Owner Driven Cars only” and are contesting and arguing with the security staff when they are asked to move their vehicles to the Chauffer Parking areas.

We would request Members to instruct their drivers to park as per the Club rules and follow the directions given by the security staff.

The Club will be compelled to take administrative action on those who violate the Club rules, as per the Articles of Association.

We request your support in this matter.
